7.1.1: Institution has a stated energy policy streamlining ways of energy conservation, use of alternate sources of energy for meeting its power requirements.

RESPONSE :

To make SSPM campus sustainable and environment friendly, the institute has taken step towards saving our environment by shifting to a clean and green source of energy, in the form of solar energy. Taking steps towards sustainable use of power resources, the Institute has also switched to the use of efficient and power saving equipment's like LED bulbs/ rods.

At SSPM, we are committed to promoting environmental sustainability and responsible energy management. This energy policy outlines our dedication to reducing energy consumption, minimizing our carbon footprint, and integrating sustainable practices into our daily operations.

Policy Statement:

RCOE recognizes the importance of energy efficiency and sustainability in achieving our academic and operational goals. We are committed to:

Energy Conservation:

Striving to reduce energy consumption and improve efficiency in all aspects of our college's operations.

Education and Awareness:

Educating students, staff, and faculty about the importance of energy conservation and encouraging their active participation.

Continuous Improvement:

Regularly monitoring and evaluating energy usage, setting reduction targets, and implementing energy-efficient technologies and practices.

Objectives:

Our energy policy aims to:

- Reduce energy consumption by [X%] over the next [X] years.
- Increase the use of renewable energy sources to account for [X%] of our total energy consumption by [X] year.

- Implement energy-efficient technologies and practices in all college buildings and facilities
- Promote a culture of energy conservation among students, staff, and faculty

Responsibilities:

To achieve our energy goals, the following responsibilities are assigned:

Management:

The college management will provide the necessary resources and support for energy conservation initiatives.

Energy Committee:

Establish an energy committee responsible for developing, implementing, and monitoring energy-saving projects and strategies.

Students:

Encourage students to take an active role in energy conservation and sustainability efforts.

Faculty and Staff:

Train and engage faculty and staff in energy-efficient practices and encourage their suggestions for improvement.

Implementation:

- To implement this energy policy effectively, we will:
- Conduct regular energy audits to identify areas for improvement.
- Invest in energy-efficient equipment, lighting, and HVAC systems.
- Promote energy conservation through awareness campaigns and educational programs.

Review and Revision:

This energy policy will be reviewed annually to ensure its effectiveness and relevance. Necessary revisions will be made to align with changing goals and technologies.

Conclusion:

SSPM of Education is committed to minimizing its environmental impact and being a leader in sustainable education. Through the implementation of this energy policy, we
